GLOBAL FUSION

The Global Fusion collection brings the richness of global culture and craftsmanship directly to your home.

At a time when borders are blurring and we are increasingly connected, this collection draws inspiration from the traditional patterns, colours and materials of faraway places. From the deep colours of African textile art to the delicate weaves of Asia, each curtain in this collection tells a story of craftsmanship and heritage.

With a sophisticated blend of vibrant hues and subtle, handcrafted details, Global Fusion creates an atmosphere of warmth, adventure and refinement in any interior. It is a tribute to the beauty of diversity, where modern luxury and cultural heritage come together for a unique, timeless aesthetic.

Origins

87% PESSPN 10% PESFIL 3% COSPN

3,00 m

5 colours

Origins is an sheer fabric with a wavy effect, created by a warp thread in different thicknesses and an extremely fine weft. This results in a very refined look. The colour palette consists of subtle shades of ecru and beige, so that the fabric looks great in any interior.

ARTISAN
colour Y8

Artisan

59% PES 23% PAN 18% CO
3,10 m
6 colours

The weave of the Artisan fabric evokes a sense of craftsmanship. The yarn contains many different textures, giving the fabric a unique look. The background consists of natural tones, combined with subtle contrasts created by the warp thread. This consists of shiny bouclé yarn and a two-colour woolly thread. A unique fabric that is both refined and expressive.

Riad

71% PES 29% PAN

3,15 m

6 colours

Our Riad fabric has an artisanal look. It is a type of mesh that owes its unique appearance to the use of two special warp threads. The hairy yarn adds volume, while the twisted multicoloured yarns add depth to the fabric. Together, these elements create a unique look that can add a bold touch to any interior.

FLOW
colour Q8

Flow

100% PES
3,20 m
18 colours

Flow is a light, supple fabric with a soft touch. Thanks to its natural movement and refined texture, Flow not only feels pleasant to touch, but also looks elegant in any space. With an extensive colour palette, Flow offers the perfect match for every taste and interior style.

Echo

60% LI 40% PES

3,15 m

26 colours

With 60% linen, Echo is a very light, supple fabric. Only the polyester yarn is coloured, creating a subtle two-tone effect in the fabric. To achieve this suppleness, the fabric has undergone mechanical treatment. No chemicals are used in this process.

Echo's lightness and elegance are best shown with a drooping finish.

SOUK
colour J3

Souk

100% PES
3,40 m
4 colours

Souk has an ethnic look. The pattern is created by manipulating the warp thread in a specific way, weaving it into a certain shape with the weft thread. The warp thread is recomposed from different shades of colour, giving the fabric a richer look and creating more depth.

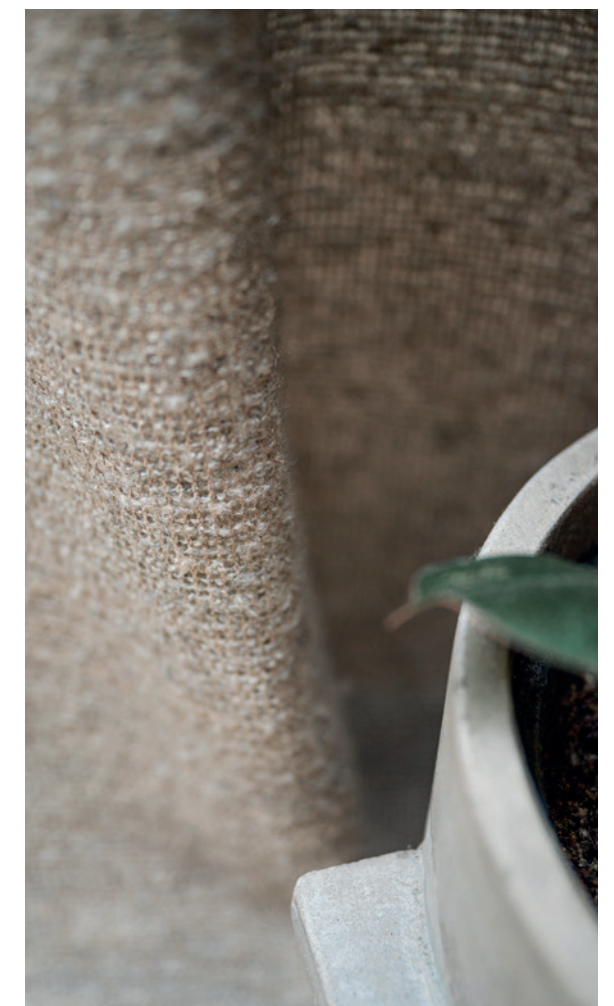

Cocoon

87% PES 13% PAN

3,10 m

4 colours

Our Cocoon is a woolly mesh fabric that exudes comfort and warmth. This fabric owes its warm appearance to the warp thread, which is made from bouclé yarn, and the weft, which contains a natural-looking yarn.

Melange

100% PES
3,00 m
11 colours

With its linen-like texture, our Melange has a cosy, comfortable look. The fabric has a subtle two-tone effect that runs horizontally. Melange drapes beautifully and, thanks to the different colours in our palette, fits perfectly into multiple spaces.

LUCE
colour P2

Luce

100% PES
3,00 m
13 colours

Luce is a light fabric with a subtle bamboo knot hemp structure that instantly brings a natural calm to the room. Thanks to its transparency, Luce is ideal for rooms where light is important, without compromising on atmosphere. Perfect for creating a harmonious line throughout the interior, especially in combination with the blackout version Notte.

NOTTE
colour N1

Notte

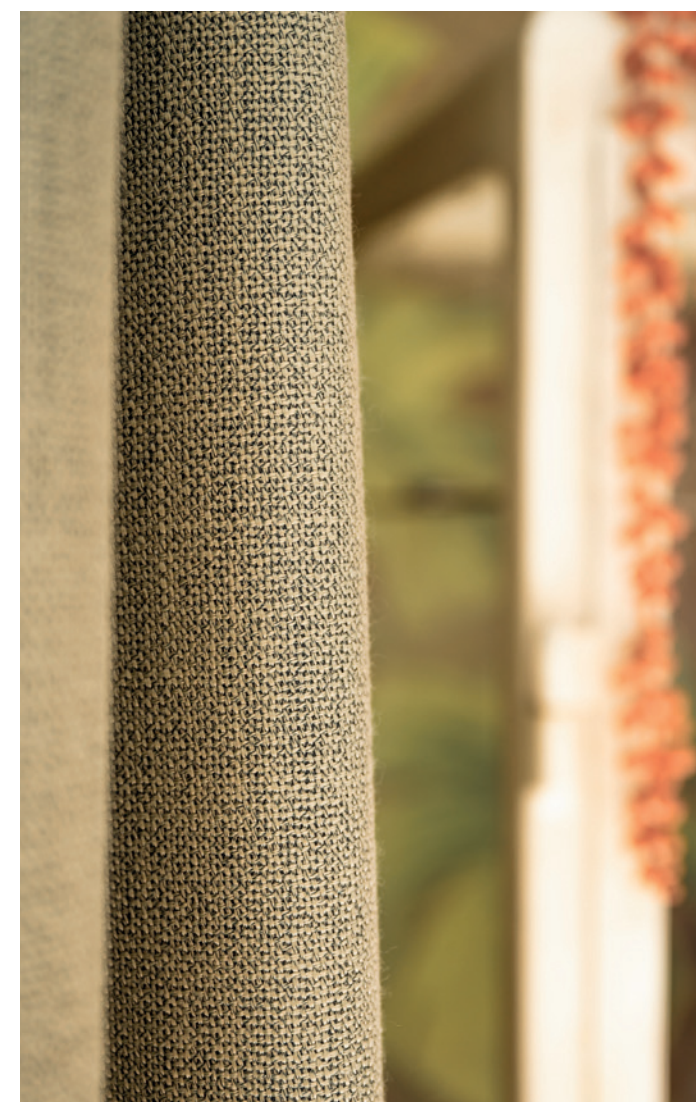

100% PES

3,00 m

13 colours

Notte is the blackout version of Luce: the same refined bamboo knot hemp texture, but with a blackout effect. Ideal for spaces where privacy and tranquillity are key.

Create unity in your interior by combining Notte and Luce, tailored to the functional needs of each room.

BELMOPAN
colour A5

Belmopan

100% PES FR
3,00 m
40 colours

Belmopan is a fire-retardant blackout fabric that combines functionality and aesthetics. What makes this fabric truly special is its finish: unlike traditional blackout fabrics, there is no visible coating. Both the front and back are made from the same fabric colour, creating a uniform look.
