

It all begins with a simple movement: sitting down, settling in for a moment, lingering for a while.

Así creates textiles for that moment.

For when a space needs to be not only beautiful, but also feel comfortable.

Así

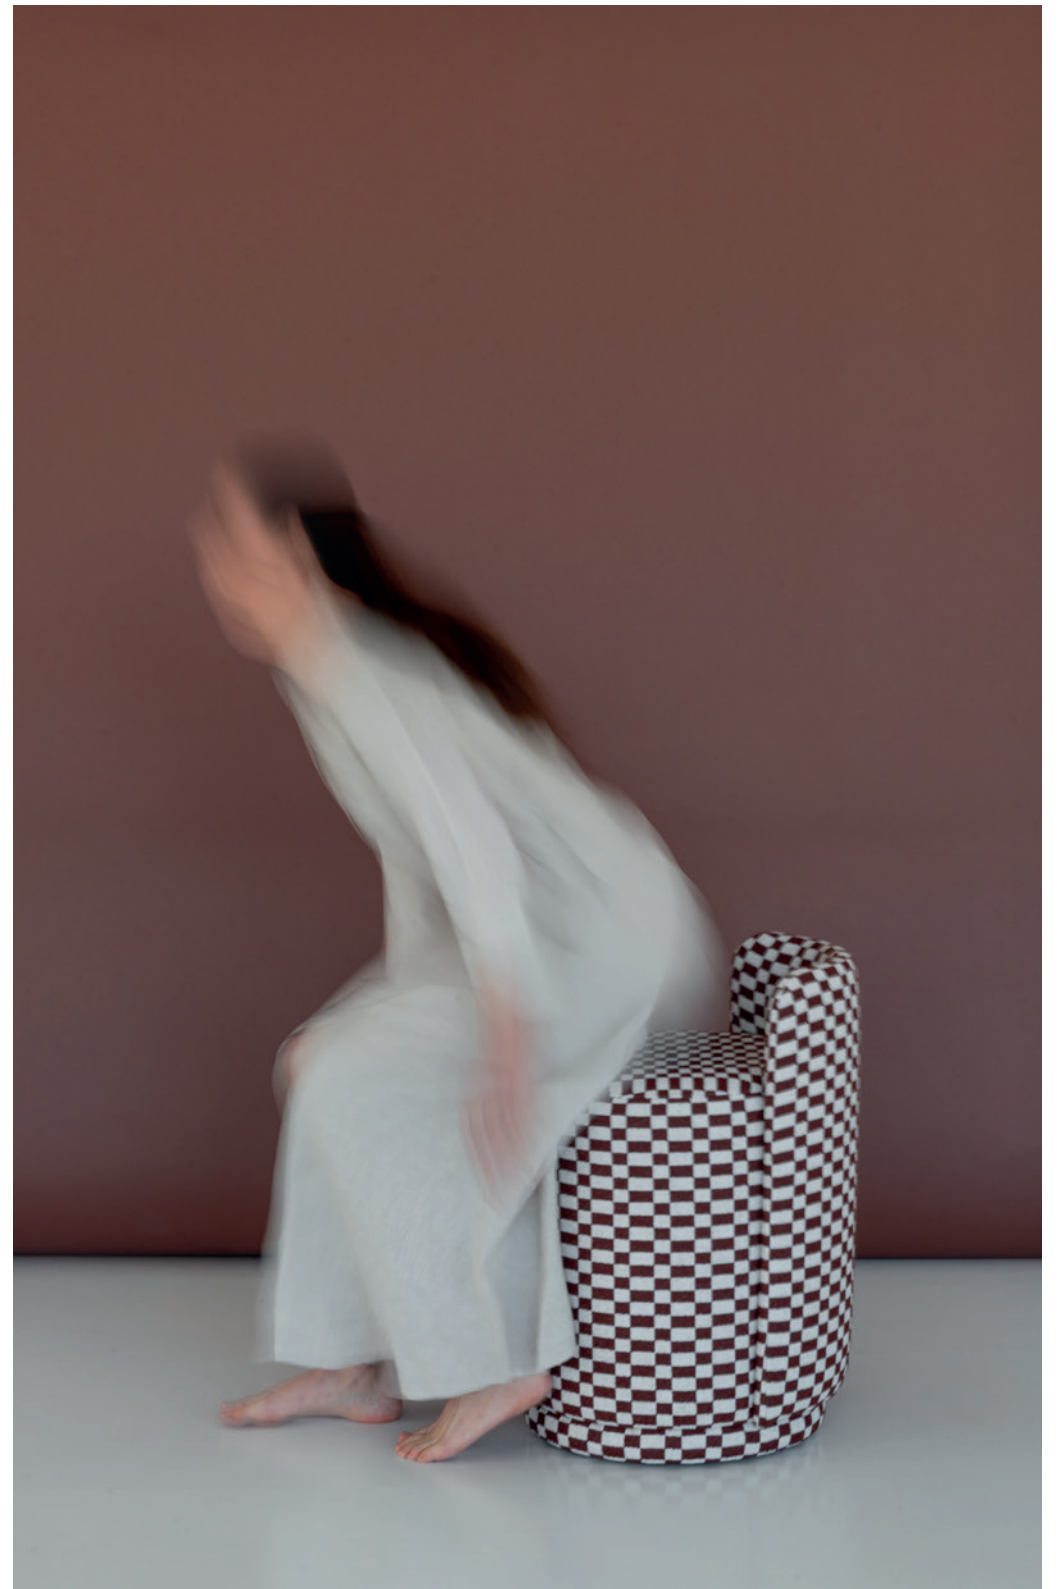

A sofa.  
A chair.  
A pillow.

The fabric is the skin of a structure, the warmth. The layer that brings shape and comfort together.

Every fabric is born from fibre, thread and weave, from structure and softness. Warp and weft intersect to form a surface that is not merely seen, but invites you to touch, to use, to experience.

Texture takes on body.  
Matter gains depth.  
Comfort gains character.

Where sitting  
becomes staying.

Inspired by 's'asseoir' — settling down, making oneself at home, inhabiting — Así designs textiles that invite. That support. That encase. That can withstand life whilst remaining soft. That absorb time and collect stories.

Así stands for:

- Matière: materials you want to touch
- Assise: the basis, the foundation of sitting
- Structure: woven precision
- Douceur: softness and comfort
- Presence: a surface with character

Textiles that move with the way we live.  
That are meant to be used. That live and  
are lived in.

Así is a brand that creates space for  
warmth, for togetherness, for residing.

An invitation to sit, to stay and to inhabit.

Fabrics that invite.

Riva

S6/cinnamon

A rhythm in fabric. Horizontal stripes that add structure without dominating. Calm, clear and timeless in character.

Riva combines two weave textures in one fabric: a plain and a slightly structured surface alternate to create a subtle play of light and depth. Available in five colour variations, from neutral to bold.

Tosca

A8/bronzebrown

Geometry with character. Tosca's check pattern is built from two different weaves, a plain ground and a lightly structured bouclé touch that together form a lively, tactile surface.

Strong enough for intensive use, warm enough for any interior. Available in five colour variations.

Alba

S6/cinnamon

Así goes beyond the sofa. The colours of Riva and Tosca have been carefully matched to a coordinating curtain fabric, allowing the line from upholstery to window decoration to flow seamlessly.

One colour palette, two applications, for an interior that works from floor to ceiling. Combining has never been this effortless, and the result never this coherent.
